City & Guilds 2391-10

Level Three Certificate in Inspection, Testing and Certification of Electrical Installations

The City and Guilds 2391 Certificate in Inspection, Testing and Certification of Electrical Installations is for you if your career would benefit from you being able to inspect, test and self certify your own work in domestic applications.

Once completed it will allow you to move onto higher levels of study and will also enable you to start work, putting your new skills to the test and providing you with further options and opportunity for earning.

It is a nationally recognised qualification and is recommended for those involved in, or wanting to be involved in, this type of electrical work.

Who is the Course Designed For?

This is a qualification that is aimed at;

- Working electricians,
- Trained electricians,
- Experienced electricians.

As a level three qualification, this course should not be taken by non-qualified or beginner electricians.

What Does the Course Cover?

As a comprehensive introduction to inspection and testing, the course covers all aspects required to carry out this type of work for clients.

Using both practical and theoretical learning techniques, the Inspection, Testing and Certification course will teach the following aspects;

- Introduction,
- RCD Tests,
- Results Recording,
- Examination Guidance,
- Continuity of Protective Conductors,
- Insulation Resistance Tests,
- Polarity and Earth Electrode Tests,
