

OVER 20 COURSES
TO ADVANCE &
ENHANCE YOUR
ELECTRICAL CAREER

Logic Part P Level 2

Full Scope VRQ Training Course

Those who successfully complete a Part P qualification will be able to register with an organisation such as, NICEIC and ELECSA.

A registration such as this will help identify you nationally as a competent Part P qualified Domestic Electrical Installer who holds the necessary Part P qualification.

Part P is vital for the understanding of the techniques and practice of electrical installation work and to enable you to become competent in its procedure.

Who is the Course Designed For?

All electrical work carried out in domestic properties must comply with Part P of the Building Regulations.

It is ideal for all those wanting to carry out electrical work that falls under Part P regulations and anyone wanting to enhance and improve their career to include more services.

It may be useful for those who have completed a plumbing course as an additional asset and for those who carry out domestic electrical work as part of their main business, i.e. kitchen fitters and joiners.

What Does the Course Cover?

Learners will cover the following units:

- Applicable Building Regulations for domestic electrical installation,
- Electrical Safety Legislation, regulations, standards and terminology,
- Domestic electrical circuit installation,
- Installing domestic lighting circuits,
- Domestic electrical earthing and bonding requirements,
- Inspection, testing and commissioning single phase domestic electrical circuits,
- Special locations and installations, including pre-work survey and inspection,
- Basic understanding of three phase.

All of the units must be understood and learnt by learners in order to progress to the examination section.

Logic Accredited Centre

Logic Certification is one of the foremost certification bodies in the UK. They are committed to quality and innovation in the services they provide.

Did You Know?

Part P Regulations state;

“Reasonable provision shall be made in the design and installation of electrical installations in order to protect persons operating, maintaining or altering the installations from fire or injury.”

Five Day Course

(A sixth day may sometimes be required)

Price: £770+VAT (per person)

Location: Stockton, Watford
(London)

Logic Part P Level 2

Full Scope VRQ Training Course

Six Day Course

(A sixth day may sometimes be required)

Price: £770+VAT (per person)

Location: Stockton, Watford (London)

What Assessments Are There?

There are seven closed book examinations that are 45 minutes long per exam.

All of these exams must be passed in order to pass the course.

Are There Any Entry Requirements?

There are no formal entry requirements for this course but learners would benefit from having some knowledge and practice of electrical installation in dwellings and a 17th Edition qualification would also be advantageous.

What Are The Reading Requirements?

Learners are required to bring with them a current copy of;

- IET 17th Edition Wiring Regulations, Amendment No. 1,
- IET Guidance Note 3: Inspection & Testing,
- IET On-site Guide, Amendment No. 1,
- Electrician's Guide to the Building Regulations.

Final Thought

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

Don't forget: lunch is provided on all our courses along with Coffee, Tea and Juice.
