

OVER 20 COURSES  
TO ADVANCE &  
ENHANCE YOUR  
ELECTRICAL CAREER

# Safe Isolation/Handyman

## For non-electrical personnel

The Safe Isolation/Handyman Course is designed for caretakers, handymen or members of other trades that may want to carry out small electrical tasks such as safely replacing socket and fused spur fronts, electrical accessories, replacing lamps, replacing bulbs and other small electrical applications as part of their role.

### What is Safe Isolation?

Ensuring that electrical equipment is isolated is a major part of the course and being able to safely isolate, prove dead and re-energise is a fundamental part of the course.

There are also practical assessments to valuable experience.

### What Does the Course Cover?

The course is broken down into two sections, a morning section where you will learn theory and demonstrations with practical exam in the afternoon.

#### Learners will cover the below topics:

- Basic electrical theory
- Electrical shock – what is it?
- Overview of current and resistance
- Earthing and why it's important
- Different types of circuit board (240v and 415v)
- Circuit identification
- Fuses, circuit breakers and, MCBs
- Lighting and power circuits
- Safe working practices
- Safe isolation
- Test equipment
- How to wire/change a plug
- Replacing socket outlets and fused spur units
- Working with light fittings
- Replacing tubes, bulbs and starters
- Ladder and step ladder safety
- Limitations of electrical work allowed

#### Train at your premises - Up to 10 people

We can come to you with everything required to carry out training on your premises so that all you need to do is bring the learners to study the course.

### Did You Know?

We also carry out PAT testing competency courses, which many people find useful alongside this course.

### One Day Course

Price: £299+VAT (per person)

Location: Stockton-On-Tees,  
Watford and On-Site
