

Marine & Offshore Authorised Person - Safe Operation of HV Power Systems

This training course is designed to give you (subject to client approval) the ability to enter marine/offshore high voltage switch rooms to perform limited switching operations etc. on high voltage equipment.

After completion, you will be permitted to issue limited safety documents (for example isolation documents) but will not be able to issue permits to work, sanctions for testing etc.

Who is the Course Suitable For?

An intermediate level training course - you must have at least a basic level of electrical knowledge to successfully complete this programme.

There are no formal entry requirements for the course.

What's Covered in the Course?

With a strong focus on marine/offshore electrical power systems, this course will develop your knowledge of these systems and allow you to enter substations/switch rooms in this environments.

After completion, you will have knowledge of restricted switching operations, be able to monitor the performance and condition of a system (including relay operation) and be able to work in a safe, competent manner. You will also gain knowledge and awareness of limited safety document issuing responsibilities.

The following subjects are covered as part of this course:

- Safety Requirements
- Electrical Hazards and Precautions
- Arrangement of High Voltage Substations/Switchrooms
- Emergency Conditions
- Philosophy of High Voltage Distribution
- Operation and Safety Features of Switchgear
- Limited Operational Procedures
- High Voltage Safety Rules
- The Role of Protection Relays
- Treatment of the System (Neutral Point)
- Practical Switching Exercise
- Case Studies
- Course Review

Need Help?

Just give us a call on 01642 987 978 and our training team will be happy to answer all of your questions.

3 Day Course

Price: £699+VAT (including assessment costs) - per person

Course Code: HVMARSO1

Location: Stockton

Safe Operation of Marine/Offshore HV Power Systems

3 Day Course

Price: £699+VAT (including assessment costs) - per person

Location: Stockton

What Assessments Are There?

You'll be expected to complete a written examination as well as take part in a practical examination during this course.

Are There Any Entry Requirements?

Yes - you should have at least a basic level of electrical knowledge.

Anyone attending training should also have a good level of both spoken and written English.

Are There Any Reading Materials Required?

There are no peripheral reading materials required for this course.

What Certification Will I Receive from This Course?

You will receive a certificate of competency after successful completion of this course.

For candidates who decide not to undertake the assessments or are unsuccessful when taking the assessments, you will receive a certificate of attendance instead.

Additional Information

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

Don't forget: lunch is provided on all our courses along with coffee, tea and juice.
