

High Voltage Power System Protection Course

This course is designed to provide detailed theoretical and practical instruction on HV/LV electrical protective equipment including primary and secondary injection, utilising electronic, microprocessor, and electro mechanical devices.

This training programme requires a good foundation of electrical knowledge. The course involves several practical exercises and demonstrations combined with classroom theory. A wide range of protective devices are used, including mechanical, electromechanical and microprocessor based relays.

The following subjects are covered as part of this course:

- Power system protection
- Fuse and MCCB protection
- Current and voltage transformers
- Basic fault level calculations
- Calculation of graded time settings
- Current transformer magnetisation curves
- Primary injection testing
- Classification and function of relays
- Secondary injection testing
- Transformer, Motor, Feeder and Generator protection
- Bus zone protection
- Trip circuit supervision requirements
- Useful formulae

5 Day Course

Price: £1050+VAT (including assessment costs) - per person

Course Code: HVPRO1

Location: Stockton

High Voltage Power System Protection Course

5 Day Course

Price: £1050+VAT (including assessment costs) - per person

Location: Stockton

What Assessments Are There?

You'll be expected to complete a written examination as well as take part in a practical examination during this course.

Are There Any Entry Requirements?

This course is suitable for Electrical/Plant Engineers, Supervisors, Technicians, Electricians with responsibility for the application, commissioning and/or maintenance of electrical protective equipment used on industrial electrical power systems.

Anyone attending training should also have a good level of both spoken and written English.

Are There Any Reading Materials Required?

There are no peripheral reading materials required for this course.

What Certification Will I Receive from This Course?

You will receive a certificate of competency after successful completion of this course.

For candidates who decide not to undertake the assessments or are unsuccessful when taking the assessments, you will receive a certificate of attendance instead.

Additional Information

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

Don't forget: lunch is provided on all our courses along with coffee, tea and juice.
