

Safe Access to High Voltage Substations and Switchrooms

This training course is designed for electrical and non-electrical personnel who need to enter high voltage substations, or switchrooms as part of their work.

As a safe entry course, this training is designed for those who will not directly interact with HV equipment inside the substation or switchroom; it is ideally suited for those who may enter to undertake specific duties such as reading meters, cleaning or painting etc.

Safe Access to HV Substations and Switchrooms is designed to give you an understanding of the dangers and associated safety requirements within these environments. It will focus on electrical hazards, different types of HV equipment and the precautions you should take to prevent danger to both yourself and others.

Course content includes:

- Safety Requirements
- Electrical Hazards and Precautions
- Arrangement of High Voltage Substations
- Basic High Voltage Safety Procedures
- The Role of Protective Relays
- Emergency Conditions
- Demonstration of Switchgear Principles
- Electrical Incidents
- Course Review
- Operational Procedures

1 Day Course

Price: £295+VAT (including assessment costs) - per person

Course Code: HVSO2

Location: Stockton
