Practical Introduction to Safe Operation of High/Low Voltage Switchgear

Learn the basics of safely performing switching on high and low voltage electrical systems with this hands-on, practical training course.

Made for both those with electrical experience, and those new to the field, this course will outline the principles behind performing switching on power systems up to and including 15kV, giving you a thorough understanding of the process plus practical experience of actually performing switching operations.

The course aims to enable you to familiarise yourself with operational procedures and potential physical constraints associated with high voltage power systems, prior to receiving full authorisation training.

The following subjects are covered as part of this course:

- Operational Procedures
- Single End Drive Motor Isolations
- Transformer Isolations
- Circuit Main Earth Application Procedures
- Additional Earth Application Procedures
- Electrical Safety Documents
- Key Safes and Multi Hasp Locking Systems
- Abridged High Voltage Safety Rules
- Course Review

Intro to Safe Operation of High/Low Voltage Switchgear

3 Day Course

Price: £699+VAT - per person

Location: Stockton

What Assessments Are There?

There are no assessments on this course.

Are There Any Entry Requirements?

Although there are no specific requirements for this course and it is suitable for both electrical and non-electrical personnel, an understanding of the basics of electricity and electrical systems would be an advantage.

Anyone attending training should also have a good level of both spoken and written English.

Are There Any Reading Materials Required?

There are no peripheral reading materials required for this course.

What Certification Will I Receive from This Course?

You will receive a certificate of competency after successful completion of this course.

For candidates who decide not to undertake the assessments or are unsuccessful when taking the assessments, you will receive a certificate of attendance instead.

Additional Information

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

Don't forget: lunch is provided on all our courses along with coffee, tea and juice.
