

NEBOSH National General Certificate

In Occupational Health and Safety

One of the most widely-held health and safety qualifications within the UK, the NEBOSH General Certificate qualification is an essential for those who need health and safety training at work.

With a NEBOSH qualification, you'll be able to prove that either you as an individual or you as an employer are fully committed towards health and safety at all times. You can use this qualification as a starting point for pursuing a career within the health and safety field, or can use it as a qualification to ensure your employees are working safely in any environment.

Who is the Course Suitable For?

The NEBOSH General Certificate course is fully suitable for anyone, regardless of their position within an organisation.

Employers will find this course ideal for teaching employees the fundamentals of health and safety, while managers/supervisors will be able to use this course to further their understanding of making a better workplace.

What's Covered in the Course?

There are three modules taken during this course: Management of Health and Safety (NGC1), Controlling Workplace Hazards (GC2) and a Health and Safety Practical Application (GC2).

There are a wide variety of different topics covered during this course, including:

- Foundations in health and safety
- Health and safety management systems - including policy, organising, planning, measuring, audits and reviews
- Workplace hazards and risk control
- Transport hazards and risk control
- Musculoskeletal hazards and risk control
- Electrical safety
- Work equipment hazards and risk control
- Fire safety
- Chemical, biological, physical and psychological hazards/control

NEBOSH Accredited Centre

The National Examination Board in Occupational Safety and Health is a globally-recognised health and safety training provider.

NEBOSH General Certificate

In Occupational Health and Safety

Fifteen Week (Evening Course)

Price: £1495+VAT (per person)

Location: Stockton

What Assessments Are There?

At the end of each of the first two modules you'll take a two hour written exam based upon the course content.

The final module is an examination in itself - you'll take part in a health and safety practical application and be expected to use the skills you've gained so far during the course.

Are There Any Entry Requirements?

No - this course is open to absolutely everyone, regardless of their background.

What Are The Reading Requirements?

There are no reading requirements for this course, although a basic understanding of health and safety would be beneficial.

Additional Information

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

Don't forget: lunch is provided on all our courses along with coffee, tea and juice.
