ENHANCE YOUR  
ELECTRICAL CAREER

Advanced

# Domestic Electrical Installer

Package containing eight important electrical training courses

The Advanced Domestic Electrical Installer Package combines eight separate courses to enable a learner to qualify as a Domestic Electrical Installer and complete electrical work after beginning the package with no experience. Anyone who would love to work in the electrical industry will find a course package quick and hassle free.

Each of the courses in the package system must be studied in order but are not completed in 25 consecutive days. This allows learners to book the courses at a separate, convenient time for them.

## Who is the Course Designed For?

This course package is suitable for those who have not completed any previous electrical qualifications and would like to get into the industry.

It is also an ideal course for anyone who would like to change their career and re-train in the electrical field to start a new career direction.

## What Does the Course Cover?

When completing a course package, you are studying for eight separate courses. All of these courses have separate content, focus, examinations and qualifications.

Each requires different reading and studying materials but each one follows on from the previous in a particular order that has been designed to build up through the levels by using and enhancing previous learning as you move through the courses.

## The courses and qualifications that make up this package are:

- Basic Electrics (*three days*),
- Introduction to Inspection and Testing (*two days*),
- City & Guilds 17th Edition 2382-12 (*3.5 days*),
- City & Guilds Building Regulations 2393-10 (*one day*),
- Logic Part P for Domestic Installers (*five days*),
- City & Guilds Inspection and Testing 2392-10 (*five days*),
- Heating and Boiler Controls (*one day*),
- Solar Photovoltaics (PV) Installer (*five days*).

Learners start with the Basic Electrics course and move on to study the following courses in the specified order.

**City & Guilds**

Logic // City & Guilds Accredited Centre

Logic and City & Guilds are two of the foremost awarding bodies in the UK. Both are dedicated to quality training.

## Did You Know?

A course package is one of the quickest and most simple ways to gain the qualifications you need to become a Domestic Electrical Installer.

## Twenty Five Day Course (Non-consecutive days)

Price: £2,995+VAT (per person)

Location: Stockton, Watford  
(London)

### What Assessments Are There?

Each of the courses in the package have their own assessments and examinations which must be passed to ensure entry to the next course in the package.

### Are There Any Entry Requirements?

There are no pre-requisites or formal entry requirements required for the course package except and interest in the subject matter.

### What Are The Reading Requirements?

Learners are required to read and bring with them a copy of;

- IET 17th Edition Wiring Regulations, Amendment No. 1,
- IET Guidance Note 3: Inspection & Testing,
- IET On-site Guide, Amendment No. 1,
- Electrician's Guide to the Building Regulations,
- **Recommended:** Electrical Installers Guide to the Building Regulations,
- **Recommended:** Prior research to solar PV installations.

### Want More Information On The Individual Courses?

Factsheets are available for all the courses making up this package. Please get in touch and we will get them to you in no time.

### Final Thought

If you are interested in this course package and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

**Don't forget:** lunch is provided on all our courses along with Coffee, Tea and Juice.
