17th Edition Online

Includes City & Guilds 2382-12 Exam at Nationwide Training Centres

The 17th Edition online course including City & Guilds exam is identical to the venue course of the same name, only this one is studied entirely online.

It is an ideal solution for anyone who works in the industry and needs this qualification but finds taking time off work difficult. The course takes learners through the 17th Edition Wiring Regulations incorporating Amendment one and fulfils the required learning hours stipulated for this qualification.

The online nature of this course means that it can be studied in any location, at times to suit individual needs.

Who is the Course Designed For?

Anyone working in a field requiring a 17th Edition qualification should complete a course such as this and those with busy jobs will benefit from studying this online version.

All those with a qualification in 17th Edition without amendment one will need to re-train to remain current with regulation requirements.

What is Covered in the Course?

The 17th Edition course covers all aspects from the previous 2382-10 qualification and also incorporates the new sections of amendment one. Both aspects now make up the full 2382-12 qualification and are the current recognised standards for 17th Edition work.

Some of the sections and aspects covered include the following:

- Protection for Safety,
- Selection and Erection of Equipment,
- Inspection and Testing,
- New Section 444 - Measures against Electromagnetic disturbances,
- New Section 534 - Devices for protection against overvoltage (surge protection),
- New Section 710 - Medical locations,
- New Section 729 - Operating or maintenance gangways,
- Appendix Six - Model forms for certification and reporting.

Each of these sections will be studied in detail to ensure a thorough understanding of the subject matter and learners must complete the specified learning hours before moving on to the exam.

It should also be noted that this course is a theory course.

City & Guilds Accredited Centre

City & Guilds are represented in over 100 countries worldwide as a vocational awarding body for qualifications.

Did You Know?

The 17th Edition Wiring Regulations incorporating amendment one came into force on 1st January 2012 and are now the standard requirement for all 17th Edition work.
