

OVER 20 COURSES
TO ADVANCE &
ENHANCE YOUR
ELECTRICAL CAREER

City & Guilds 2377-22

The In-service Inspection and Testing of Electrical Equipment (PAT Testing)

The 2377-22 course from City and Guilds is a PAT testing course that provides you with a recognised qualification in portable appliance testing procedure.

Often employers require a proof of training qualification which the 2377-22 can adequately provide.

If you are in this position or you would just like to study for an industry recognised qualification, this PAT course could be for you.

Who is the Course Designed For?

Anyone who is responsible for the maintenance of portable appliances in a work environment or anyone who would like to take up PAT testing as a career would benefit from this training course.

It is suitable for anyone with an interest in PAT testing who would like to gain a City and Guilds qualification.

What Does the Course Cover?

The 2377-22 course contains practical and theoretical learning aspects to ensure learners fully grasp the subject matter. We include mock exams to give you the best chances of passing the theory exam.

Once the course is successfully completed, learners should be able to carry out basic PAT work and keep records to satisfy the Electricity at Work Regulations.

Learners will cover the following topics:

- Hazards of electricity,
- Classification of appliances,
- Dangers,
- Legal requirements,
- IET Code of Practice,
- Recording results,
- Using PAT testing equipment.

Learning to become a professional PAT tester can be an ideal and lucrative business for anyone with an interest in the subject.

City & Guilds Accredited Centre

City & Guilds are represented in over 100 countries worldwide as a vocational awarding body for qualifications.

Did You Know?

Some employers stipulate that the 2377-22 PAT testing course is a required qualification before they will consider employing you in the role of PAT tester.

Two Day Course

Price: £295+VAT (per person)
