City & Guilds 2393-10

Level Three Certificate in Building Regulations for Electrical Installations in Dwellings

The Government approved Document P (electrical safety) came into effect on the 1st January 2005. For the first time the mainstream work of domestic electrical installers became subject to the requirements and procedures associated with Building Control.

The City and Guilds 2393-10 course teaches those who are already working in the electrical industry but do not currently have any formal qualifications in Building Regulations.

Anyone who works in an environment that falls under the Building Regulations will need to complete this course.

Who is the Course Designed For?

It is most suitable for those who already work in the industry in domestic electrical environment and have several years experience.

What Does the Course Cover?

Covering all aspects of the general requirements of the Building Regulations in relation to electrical installations for dwellings.

You will cover the following:

1. Scope, Purpose and Structure of the Building Regulations,
2. Understand notifiable and non-notifiable types of building work,
3. Identify relevant approved documents,
4. Identify the role of Building Control Services.

This course teaches the methods of compliance for all seven parts of the Building Regulations most relevant to electrical installations in dwellings.

Final City & Guilds Registration Date Is 31 December 2012

City & Guilds Accredited Centre

City & Guilds are represented in over 100 countries worldwide as a vocational awarding body for qualifications.

Did You Know?

This qualification is widely recognised by the five main competent person schemes including NAPIT, NICEIC, Gas Safe, ELECSA and BSI. Once completed, learners can apply to their preferred scheme for accreditation.

One Day Course

Price: £195+VAT (per person)

Location: Stockton, Watford (London)

What Assessments Are There?

Once all the learning aspects are completed candidates are assessed by a multiple choice 20 question exam taken online.

Are There Any Entry Requirements?

Candidates should be familiar with installations in domestic electrical environments and should be working in the industry. It is expected that learners have a working knowledge of the following:

- Electrical Safety Legislation, Regulations, Standards and Terminology,
- Domestic Electrical Circuit Installation,
- Installing Domestic Lighting Circuits,
- Domestic Electrical Earthing and Bonding Requirements,
- Inspecting, Testing and Commissioning Single Phase Domestic Electrical Circuits,
- Special Locations and Installations Including Kitchens,
- Domestic Electrical Installation Pre-Work Survey / Inspection,
- Basic Understanding of 3 Phase.

If not the five day Part P course would be a better choice.

What Are The Reading Requirements?

Learners are required to bring with them a current copy of;

- The Electricians Guide to the Building Regulations,
- **Recommended:** Electrical Installers Guide to the Building Regulations.

Final Thought

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

Don't forget: lunch is provided on all our courses along with Coffee, Tea and Juice.
