City & Guilds 2395-01

Level Three Certificate in Periodic Inspection, Testing and Certification of Electrical Installations

The City and Guilds 2395-01 course for Periodic Inspection, Testing and Certification of Electrical Installations is for those who need to learn further skills in this field and electricians currently practicing who would like to refresh their current knowledge.

The course allows people to improve their skills and confidence, and be able to inspect, test and certify electrical installations professionally.

This course is one of two courses which replaced the 2391-10 qualification. The other is the 2394-01 course.

Who is the Course Designed For?

Those most suited to this City and Guilds qualification should be practicing electricians who would like to improve their inspection, testing and certification skills, or who feel they need a refresher course to improve working knowledge.

However, it is not a suitable course for those with very limited knowledge and experience of electrical inspection and testing.

What Does the Course Cover?

To gain a qualification in Electrical Inspection and Certification, candidates must first go through all the learning modules. Once these have been successfully passed learners will be able to carry out a range of inspection and testing for commercial and domestic premises.

The course covers the following subjects:

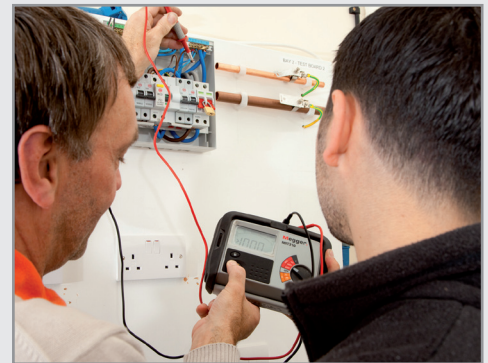

- Safe isolation of electrical circuits and installations,
- Inspecting, testing and recording of electrical installation condition requirements,
- Periodic inspection vs initial verification,
- Energised circuits and installations,
- Electrical installation inspections and tests,
- Test results,
- Confirming system safety,
- Documentation,
- Conductor resistance,
- Earth fault loop paths,
- Verifying protection,
- Safe testing.
- Condition reports,
- Health and safety,
- Reasons and requirements,
- Insulation resistance testing,
- Earth fault loop paths,
- Testing residual current devices,

Did You Know?

If you wish to study this course and its sister course, the City & Guilds 2394-01, we can offer you both for a reduced price of just £995.00+VAT.

Four Day Course

Price: £555+VAT (per person)

Location: Stockton, Watford
(London)

What Assessments Are There?

Assessment for this course is via a multiple choice test, a written exam and an assignment.

Are There Any Entry Requirements?

There are no formal entry requirements for this course but candidates would benefit from having some knowledge and practice of electrical installation and a 17th Edition qualification would also be advantageous.

What Are The Reading Requirements?

Candidates are advised to make themselves familiar with electrics and electrical principles to ensure an understanding of the course content. Knowledge of 17th Edition would also be beneficial.

Learners are required to bring with them a current copy of;

- IET 17th Edition Wiring Regulations, Amendment No. 1,
- IET Guidance Note 3: Inspection & Testing,
- IET On-site Guide, Amendment No. 1,
- **Recommended:** Electrical Installers Guide to the Building Regulations.

Final Thought

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

Don't forget: lunch is provided on all our courses along with Coffee, Tea and Juice.
