EAL 4338 Periodic Inspection

Level 3 Award in Periodic Inspection, Testing and Certification of Electrical Installations

The 4338 course from EAL is aimed at people wanting to develop and enhance their knowledge of periodic inspection and testing.

Following the IET's Guidance note 3 and the BS7671 regulations as well as Electrical Safety First's best practice guides, this course is ideal for those wanting an recognised qualification to safely carry out periodic inspection, testing and certification of electrical installations.

With elements of theory and practical learning, the 4338 covers all aspects of the subject matter in detail with plenty of opportunity for thorough understanding.

Who is the Course Suitable For?

Those already working in the industry with experience of inspection and testing who would like to update existing skills, or increase skills, to include periodic inspection and testing will find this course suitable to achieve this.

What Does the Course Cover?

The 4338 covers all aspects of periodic inspection and testing including things like; safe isolation, condition reporting, periodic inspection, testing, interpreting test results and certification of installations. The following topics are covered:

- Inspecting and testing existing installations
- How to complete the electrical installation condition report and supporting documents
- Carrying out periodic inspections
- Periodic inspection and initial verification differences
- Reading, understanding and interpreting test results
- Safely testing electrical installations already in operation
- Confirming the safety of a system and equipment before work
- Carrying out electrical installation inspections
- Recording observations and classifications

Each of the sections are studied in detail to ensure a thorough understanding and to allow the learner to gain knowledge enough to pass the assessments and carry out work safely and successfully.

EAL Accredited Centre

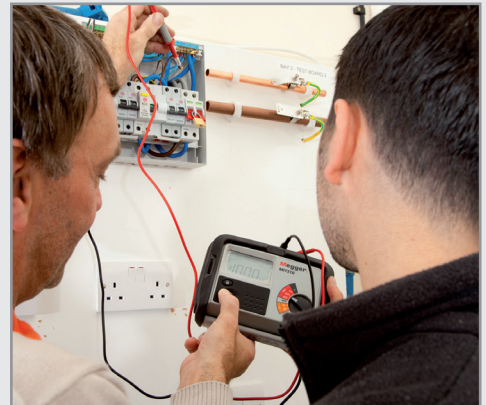

EAL is the specialist, employer-recognised awarding organisation for the engineering, manufacturing, building services and related sectors.

Did You Know?

The EAL 4338 can be taken as a combined package course with the EAL 4337 course programme. This allows two courses to be studied simultaneously and both qualifications to be achieved.

Six Day 4337 & 4338

Price: £995+VAT (per person)

Location: Stockton-On-Tees and Watford

EAL 4338 Periodic Inspection

Level 3 Award in Periodic Inspection, Testing and Certification of Electrical Installations

Six Day Combined EAL 4337 & 4338

Price: £995+VAT (per person)

Location: Stockton-On-Tees and Watford

What Assessments Are There?

Assessments for the 4338 consist of an online exam and a practical assessment in the principles, practices and legislation for periodic inspection.

Both elements of the assessment must be passed to successfully complete the course and gain the qualification.

Are There Any Entry Requirements?

An interest in the subject and, knowledge and understanding of electrical principles with experience in the industry is vital.

Knowledge of the 17th Edition Wiring Regulations would be useful.

What Are The Reading Requirements?

The following publications will be referred to throughout the course and learners would find it advantageous to have their own copies:

- IET Inspection and Testing Guidance Note 3 (inc. Amendment 1)
- IET On Site Guide BS7671:2008 (2011)
- IET Wiring Regulations (Amendment 1: 2011)

Final Thought

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

Don't forget: lunch is provided on all our courses along with coffee, tea and juice.
