

# CITB Site Supervisor's Safety Training Scheme (SSSTS)

This two-day course introduces site supervisors to their legal responsibilities regarding health, safety, welfare and environmental issues.

This course will help you to understand how to manage safety on-site much more effectively and to understand the potential issues that ignoring health and safety could cause.

Taking this course will help you to grow as a manager, as well as prove your commitment to health and safety.

## Who is the Course Suitable For?

All managers working within the construction sector should consider taking this course.

## What's Covered in the Course?

Over the course of the two days, you'll take part in case studies, classroom discussions, group work and individual/group presentations focused on health and safety within the construction sector.

Topics covered during this course include:

- The Health and Safety at Work Act
- Specific site issues that challenge supervisors on a daily basis
- Effective toolbox talks
- Supervision of occupational health
- Behavioural safety

## Did You Know?

Every five years you will need to take a refresher course for this training to ensure you're up to date.
