

IOSH Working Safely

From new employees to seasoned staff members, everyone should have a strong working knowledge of health and safety in the workplace. This working safely course ensures that your staff have this essential training.

IOSH's Working Safely course is a highly popular, fully accredited health and safety course which is open to workers from any sector. Taking place over a single day, the course ensures minimal disruption to work and covers all health and safety content in an easy-to-understand and interactive manner.

Who is the Course Suitable For?

Any working professional should have an understanding of health and safety - IOSH is available to anyone who wants to take the course, and is widely used as the health and safety course of choice for many people.

What's Covered in the Course?

IOSH's Working Safely course aims to help you understand how working safely is of the utmost importance. While other health and safety courses are focused strongly on legislation, IOSH Working Safely instead focuses on best practice, delivering training in a fun, interactive way.

During the course, you'll be given memorable facts and case studies to apply real-life examples to the course content, take part in interactive games and quizzes and learn everything you need to know in a single day (ideal for ensuring minimal disruption to your working life).

The course focuses on the following sections:

- Introduction to working safely
- Defining hazards and risks
- Identifying common hazards
- Improving safety performance
- Protecting our environments
