

Authorised Person Training Limited Operation of HV Power Systems (Refresher)

At PASS training we are committed to delivering training to the highest standards. We value customer feedback and use it to continually refine our courses. Having trained hundreds of candidates, our programs are designed to be professional and led by experienced tutors. Our goal is to equip our customers with the knowledge and skills to achieve officially recognized qualifications across a range of disciplines.

Our trainers deliver courses in a clear, approachable, and enjoyable way, ensuring you have the best possible learning experience. Every trainer is fully qualified and accredited, and they work closely with you throughout the course to ensure you gain the knowledge you need.

Course Overview

Refresh your HV operational knowledge with this course which is designed to reinforce your existing experience of routine switching operations and issuing of isolation documents associated with single end drive circuits.

Through a mix of classroom-based and practical exercises, you will refresh your knowledge of safely operating high voltage systems and be able to safely perform routine switching operations/issue isolation documents.

Key Information

Duration: 2 Days

Price: £550.00 + VAT

Booking Code: HVS03

Location: Stockton

Course Details

Who is this Course Suitable For?

This course is recommended for those who have previously worked in the high voltage industry, but may have moved into other fields before getting back into HV work. It is also recommended for authorised persons as a means to refresh your knowledge and ensure you are working to all current regulations.

Course Aim

To comply with safety requirements and be able to carry out limited HV switching operations in HV switching rooms up to and including 15kV suitable for an AP and issue relevant documents.

What Does the Course Cover?

- ▶ Hazards of Electricity
- ▶ Electrical Statutory Regulations
- ▶ Operational Procedures
- ▶ Abridged High Voltage Safety Rules
- ▶ Causes of Electrical Accidents
- ▶ Case Studies
- ▶ Safety Documents and Lockout/Tagout
- ▶ Practical Switching Exercises
- ▶ Course Review

Entry Requirements

You should already have studied previous HV limited safe operation courses and want to refresh your knowledge.

Anyone attending training should also have a good level of both spoken and written English.

Assessments

You'll be expected to complete a written examination as well as take part in a practical examination during this course.

Course Certification

Upon the successful completion of this course delegates will receive a certificate of competency.

For candidates who decide not to undertake the assessments or are unsuccessful when taking the assessments, you will receive a certificate of attendance instead.

Course Materials

Delegates can bring with them any materials used by their own employer/company, so that they are able to use real life examples and gain insight into how their existing protocol fits into the context of the course.
