

High Voltage Sanction For Test Receipt Authorisation

At PASS training we are committed to delivering training to the highest standards. We value customer feedback and use it to continually refine our courses. Having trained hundreds of candidates, our programs are designed to be professional and led by experienced tutors. Our goal is to equip our customers with the knowledge and skills to achieve officially recognized qualifications across a range of disciplines.

Our trainers deliver courses in a clear, approachable, and enjoyable way, ensuring you have the best possible learning experience. Every trainer is fully qualified and accredited, and they work closely with you throughout the course to ensure you gain the knowledge you need.

Course Overview

This course is designed to enable those who are required to carry out testing on high voltage equipment to become authorised to receive sanction for test documents relating to safe practices and legislation applicable to high voltage power systems up to, and including 15kV.

Please note that this course is not designed to train you in various types of testing (for example primary/secondary injection or pressure testing); the course is designed to purely become authorised to receive sanction for test documents.

Key Information

Duration: 3 Days

Price: £750.00 + VAT

Booking Code: HVS05

Location: Stockton

Course Details

Who is this Course Suitable For?

Personnel with knowledge of inspection and maintenance of HV power systems and who are responsible for testing systems following the receipt of sanction for test documents.

Course Aim

At our high voltage training centre, you'll take part in a mix of theory and practical exercises designed to give you the skill level required to receive sanction for test documents.

What Does the Course Cover?

- ▶ Hazards Associated with Testing
- ▶ Review of Statutory Regulations
- ▶ Operational and Safety Features of Switchgear
- ▶ Safety Lockout Procedures
- ▶ Case Studies Associated with Testing
- ▶ Operational Procedures
- ▶ Proving Dead/Discharging
- ▶ Safety of Operations During Testing
- ▶ Practical Exercises

Entry Requirements

You should have prior knowledge of the inspection, operation, maintenance and repair of high voltage electrical power systems. Anyone attending training should also have a good level of both spoken and written English.

Assessments

You will take part in both a written and practical examination during this course.

Course Certification

Upon the successful completion of this course delegates will receive a certificate of competency.

For candidates who decide not to undertake the assessments or are unsuccessful when taking the assessments, you will receive a certificate of attendance instead.

Course Materials

Delegates can bring with them any materials used by their own employer/company, so that they are able to use real life examples and gain insight into how their existing protocol fits into the context of the course.
