

Safe Operation of 33Kv High Voltage Power Systems Course (33kv Upgrade Course)

At PASS training we are committed to delivering training to the highest standards. We value customer feedback and use it to continually refine our courses. Having trained hundreds of candidates, our programs are designed to be professional and led by experienced tutors. Our goal is to equip our customers with the knowledge and skills to achieve officially recognized qualifications across a range of disciplines.

Our trainers deliver courses in a clear, approachable, and enjoyable way, ensuring you have the best possible learning experience. Every trainer is fully qualified and accredited, and they work closely with you throughout the course to ensure you gain the knowledge you need.

Course Overview

This City & Guilds accredited training programme is designed for personnel who have previous authorisation up to 15kV, who wish to extend their authorisation level to enable them to operate on (indoor) 33kV systems. The programme focuses on the practical element of switching and is predominantly workshop rather than classroom based.

Key Information

Duration: 2 Days

Price: £550.00 + VAT

Booking Code: HVS010

Location: Stockton

Contact: 01642 987 978

Course Details

Who is this Course Suitable For?

Designed for personnel who are authorised to switch on systems up to and including 15kV who wish to advance to work on HV systems up to and including 33kV.

Course Aim

This course aims to enhance delegates current high voltage authorisation to a higher level and familiarise participants with operational protocols and potential physical constraints associated with indoor 33kV power systems, following receipt of full authorisation training such as HVS04 (or similar) high voltage authorisation training.

What Does the Course Cover?

- ▶ High voltage safety rules
- ▶ Safe Working in Outdoor Switchyards
- ▶ Miscellaneous Safety Considerations
- ▶ Operating Procedures
- ▶ Practical Exercises
- ▶ Course review

Entry Requirements

The ideal candidate should be currently authorised to switch on high voltage systems up to and including 15kV, with a desire to expand their authorisation level to carry out switching on indoor systems up to and including 33kV.

Anyone attending training should also have a good level of both spoken and written English.

Assessments

You'll be expected to complete a written examination as well as take part in a practical examination during this course.

Course Certification

You will receive a certificate of competency after successful completion of this course. For candidates who decide not to undertake, or are unsuccessful when taking the assessments, you will receive a certificate of attendance instead.

Related Courses

- ▶ HVS04 - Senior Authorised Person - Safe Switching Operation of High Voltage Power Systems (SAP)
