City & Guilds 2382-18

Level Three Certificate in 18th Edition Wiring Regulations

The 18th Edition course is essential for those working in the Building Services sector as electricians and other related fields who need knowledge of the IEE (BS7671:2018) Wiring Regulations.

From July 2018 this course will replace the 2382-12 and 2382-15 17th Edition Wiring Regulations courses.

Who is the Course Designed For?

Anyone who works in a trade which requires knowledge of electrical installations, this course is designed for all levels from management and design to building and electrical installer tradespeople.

What Does the Course Cover?

The City & Guilds 18th Edition course covers all aspects of the Wiring Regulations; Protection for Safety, Selection and Erection of Equipment and Inspection and Testing.

The course will go into detail on all sections included in the 18th Edition Wiring Regulations (Blue Book released in July 2018).

Each of these sections will be studied in detail to ensure a thorough understanding of the subject matter.

The course is likely to include all chapters detailed in the 17th Edition with the addition of some new and updated areas such as:

- Protection against electric shock, thermal effects, voltage disturbances and electromagnetic disturbances.
- Devices for isolation and switching
- Selection and erection of wiring systems
- Protection, isolation, switching, control and monitoring
- Devices for protection against overvoltage
- Earthing arrangements and protective conductors
- Onshore units of electrical shore connections for inland navigation vessels
- Energy efficiency
(this is not an exhaustive list)

City & Guilds Accredited Centre

City & Guilds are represented in over 100 countries worldwide as a vocational awarding body for qualifications.
