

## High Voltage Cable Jointing & Terminating Course

This training course is designed to introduce candidates to the particular methods and techniques required to joint and terminate high voltage cables up to 15kV.

This version of the course is specifically made for the termination and jointing of live cables only – if you need to work with dead cables, you should consider taking the LVCJT01 course (dead working) instead.

You'll be involved in the preparation of high voltage polymeric cables prior to splicing or terminating the cables. The understanding of how to correctly strip and prepare a cable will enable the candidate to install almost any type of joint or termination by any manufacturer.

The following subjects are covered as part of this course:

- · The Component Parts of a Cable
- · Safety Documentation
- Cable Identification
- · How to Strip a Cable for Testing
- · How to Install HV Glands
- · How to Install Solderless Earths
- How to Carry Out 3 Core Terminations
- How to Carry Out a High Voltage Straight Joint
- Introduction to HV Testing
- Introduction to Cable Spiking

Course Code: HVCJT01 Location: Stockton

# High Voltage Cable Jointing & Terminating Course

#### **5 Day Course**

Price: £2499+VAT (including assessment costs) - per person

**Location:** Stockton

#### What Assessments Are There?

You'll be expected to complete a written examination as well as take part in a practical examination during this course.

#### Are There Any Entry Requirements?

You should have previous experience of glanding and terminating low voltage cables, or be an engineer/supervisor with knowledge of this process.

Anyone attending training should also have a good level of both spoken and written English.

#### **Are There Any Reading Materials Required?**

There are no peripheral reading materials required for this course.

#### What Certification Will I Receive from This Course?

You will receive a certificate of competency after successful completion of this course.

For candidates who decide not to undertake the assessments or are unsuccessful when taking the assessments, you will receive a certificate of attendance instead.

#### **Additional Information**

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.

**Don't forget:** lunch is provided on all our courses along with coffee, tea and juice.
