

High Voltage Sanction for Test Receipt Authorisation

This course is designed to enable those who are required to carry out testing on high voltage equipment to become authorised to receive sanction for test documents relating to safe practices and legislation applicable to high voltage power systems up to – and including – 15kV.

At our high voltage training centre, you'll take part in a mix of theory and practical exercises designed to give you the skill level required to receive sanction for test documents

Please note that this course is not designed to train you in various types of testing (for example primary/secondary injection or pressure testing); the course is designed to purely become authorised to receive sanction for test documents.

The course includes the following sections:

- Hazards Associated with Testing
- Review of Statutory Regulations
- Operational and Safety Features of Switchgear
- Safety Lockout Procedures
- Case Studies Associated with Testing
- Operational Procedures
- Proving Dead/Discharging
- Safety of Operations During Testing
- Practical Exercises
