# Course Details

## Who is this Course Suitable For?

Anyone who has a responsibility for ensuring the safe use of electrical energy within the workplace who needs/wants to learn electrical regulations such as facilities managers, electrical contractors and health and safety officers.

## Course Aim

To ensure attendees have a full and sufficient understanding of the legal implications and responsibilities associated with the requirements of the Electricity at Work Regulations 1989.

The course covers the legal requirements of commercial and industrial personnel who may be involved in work which includes voltages ranging from 12 Volts to 400,000 Volts.

## What Does the Course Cover?

- ▶ Hazards & Effects of Electricity
- ▶ The Purpose & Background of the Regulations
- ▶ Scope of the Regulations
- ▶ Employers, Employees & Contractors Responsibilities
- ▶ Review of Regulations
- ▶ Legal Implications of Non-Compliance

## Entry Requirements

No previous experience necessary. Anyone attending training should have a good level of both spoken and written English.

## Assessments

Assessment is via written examination (Open Book).

## Course Certification

Candidates who successfully complete the theoretical competency assessment will receive a PASS "Competence" certificate. Those who fail or do not wish to undertake the competency assessment will receive a PASS "Attendance" certificate.
