

Authorising Engineer Training Course

At PASS training we are committed to delivering training to the highest standards. We value customer feedback and use it to continually refine our courses. Having trained hundreds of candidates, our programs are designed to be professional and led by experienced tutors. Our goal is to equip our customers with the knowledge and skills to achieve officially recognized qualifications across a range of disciplines.

Our trainers deliver courses in a clear, approachable, and enjoyable way, ensuring you have the best possible learning experience. Every trainer is fully qualified and accredited, and they work closely with you throughout the course to ensure you gain the knowledge you need.

Course Overview

This course covers the duties, training, familiarisation, assessment, endorsement and safety auditing of High Voltage personnel. It enables candidates to acquire the skills to assess/audit the competency of personnel who need to work on their High Voltage systems and issue them with suitable authority.

Course Details

Who is this Course Suitable For?

Authorising Engineers are responsible for auditing and authorisation of electrical personnel regarding switching and issuing of electrical safety documents. Candidates wishing to attend this course should already be at senior authorised level and have substantial experience in this role.

Course Aim

This course enables candidates to acquire the skills to assess/audit the competency of personnel who need to work on their High Voltage systems and issue them with suitable authority.

What Does the Course Cover?

- ▶ Electrical Hazards
- ▶ Electricity at Work Regulations 1989
- ▶ High Voltage Safe Systems of Work
- ▶ Operational and Safety Features of Switchgear
- ▶ Causes of Accidents
- ▶ Understanding the Arc Blast Hazard
- ▶ Risk Assessments
- ▶ Test Equipment for Proving Dead
- ▶ Electrical Safety Definitions and Practices
- ▶ Competency Assessments
- ▶ Duties, Training, Familiarisation, Assessment, Endorsement and Safety Auditing
- ▶ General High Voltage Auditing Requirements

Entry Requirements

The ideal candidate should be currently authorised to switch on high voltage systems up to and including 15kV, with a desire to expand their authorisation level to carry out switching on indoor systems up to and including 33kV.

Anyone attending training should also have a good level of both spoken and written English.

Assessments

Assessment is via written examination.

Course Certification

You will receive a Certificate of Competence following successful completion of this course. Candidates who fail or do not wish to undertake the competency assessment will receive a PASS attendance Certificate.

Related Courses

- ▶ HVS04 - Senior Authorised Person - Safe Switching Operation of High Voltage Power Systems (SAP)
