

# CCN1- Core Domestic Gas Safety and Appliances (CCN1 with CENWAT, CPA1, CKR1, HTR1)

At PASS training we are committed to delivering training to the highest standards. We value customer feedback and use it to continually refine our courses. Having trained hundreds of candidates, our programs are designed to be professional and led by experienced tutors. Our goal is to equip our customers with the knowledge and skills to achieve officially recognized qualifications across a range of disciplines.

Our trainers deliver courses in a clear, approachable, and enjoyable way, ensuring you have the best possible learning experience. Every trainer is fully qualified and accredited, and they work closely with you throughout the course to ensure you gain the knowledge you need.

## Course Overview

CCN1 – Domestic Gas Safety is the core qualification required for any participant wishing to become a gas engineer/installer and work on domestic gas installations and appliances. In addition, the participant must also hold the relevant appliance certification relating to the work they wish to undertake.

Once passing the CCN1 course, participants can complete additional modules for specific appliances and must apply to be on the Gas Safe Register. Membership is a legal requirement for any installer wishing to carry out gas work in the United Kingdom.

## Key Information

### Initial

Duration: 5 Days  
Price: £995.00 + VAT  
Booking Code: GASTRA-CCN1

### Re-assessment

Duration: 2 Days  
Price: £750.00 + VAT  
Booking Code: GASTRA-CCN1/R

**Location:** Welwyn Garden City

**Max Delegates:** 6

# Course Details

## What Does the Course Cover?

CCN1 – Domestic Gas Safety training and assessment covers:

- ▶ Gas safety regulations and other relevant legislation
- ▶ Combustion, relevant pressure and gas rates
- ▶ Gas pipe work
- ▶ Gas Controls
- ▶ Tightness testing and purging, including low and medium pressure
- ▶ Chimney systems recognition and testing
- ▶ Ventilation

Initial appliances training covers:

- ▶ Installation
- ▶ Commissioning
- ▶ Servicing and maintenance
- ▶ Basic gas safety fault finding

**CENWAT** – Central Heating Boilers & Water Heaters up to 70kw net

**CPA1** – Combustion Performance Analysis

**CKR1** – Domestic Gas Cooking Appliances

**HTR1** – Domestic Space Heaters (Gas Fires and Wall Heaters)

## Appliance Modules

Additional modules for appliances can be completed during CCN1 training. This includes DAH1, LAU1, LEI1, MET1, please see additional factsheets for more information or call to discuss your training requirements.

## Entry Requirements

**Initial:** Is for gas installers whose existing certificate has lapsed by more than 12 months or for candidates adding this qualification for the first time, who have undertaken an approved learning programme such as Managed Learning Programme.

**Re-assessment:** To undertake re-assessment, operatives must complete the course no more than 12 months after the expiry date of their existing qualification.

## Assessments

The CCN1 course involves the following assessments:

**Written Examination:** Testing knowledge of relevant legislation, safety practices, installation procedures, and best practices.

**Practical Assessment:** Hands-on demonstration of skills, including safe installation and commissioning, fault finding, servicing, operational and performance checks.

## Course Certificate

Upon successful completion, candidates receive a certificate from LCL Awards. This certification is valid for 5 years and is recognised by the Gas Safe Register, enabling operatives to work legally on Core Domestic Natural Gas Safety and Appliances (CCN1) and the appliances they have undertaken assessment on.
